MY SWISS BRICK TRIP · LAKE THUN

Oberhofen Castle

Photo: Andrea Einaudi · CC0 1.0

534 pieces · 107 different parts

A brick-built souvenir model, compatible with standard bricks.

On its display stand: 25.6 × 27.2 cm, 14.4 cm tall.

Parts lists for Pick a Brick and BrickLink: see the project website.

Relive your Swiss holiday, brick by brick · a free hobby project, not affiliated with any brick manufacturer

Oberhofen Castle

Oberhofen Castle stands right on the shore of Lake Thun, with a little tower out in the water and the Alps across the lake. Its stone keep is about 800 years old; in the 19th century a family of counts turned the castle into a romantic summer home. Today it is a museum with one of the loveliest gardens in the Alps.

In the village of Oberhofen on the north shore of Lake Thun, between Thun and Interlaken.

Built	keep about 1200; rebuilt in a romantic style 1849 to 1852
Type	lakeside castle, today a museum with a park
Keep	about 11 by 12.5 m, with walls 2 m thick
Look	white walls, steep brown roofs, a colourful tiled roof and a tower standing in the lake
Park	2.5 hectares of lawns and old trees along the shore
Visitors can	see the museum from spring to autumn and walk in the park by the water

The brick-built model you are about to build.

Through the centuries

about 1200	The stone keep is built on the lake shore.
1306	The lords of Eschenbach have to sell Oberhofen to the Habsburgs.
1386 to 1397	Bern takes Oberhofen and buys up all the rights to it.
1652	The castle becomes the seat of a Bernese bailiff.
about 1700	The old little tower in the lake, shown in a picture of 1680, is pulled down.
1844	The Counts Pourtalès buy the castle and rebuild it in a romantic style, with a new lake tower and a park.
1940	The American William Maul Measey sets up a foundation to look after the castle.
1954	The castle opens as a museum.

Photo: Alps (Wikimedia Commons user) · Public domain · Wikimedia Commons

A smoking room from Cairo

High up in the medieval keep is a surprise: in the 1850s the Pourtalès family had an oriental smoking room built there, with colourful patterns copied from the houses of rich merchants in Cairo. Gentlemen climbed up after dinner to smoke and talk.

The tower that came back

A picture from 1680 already shows a little tower in the lake. It was pulled down around 1700, and the counts built it again in the 19th century, with a steep, pointed roof that has become the castle's trademark.

Upstairs, downstairs

The museum shows both sides of castle life: the fine rooms of the owners and the plain rooms of the cooks, maids and servants who kept everything running.

FIND IT IN LAKE THUN

Address
Schloss Oberhofen, 3653 Oberhofen am Thunersee

Getting there
Take a lake boat from Thun or Interlaken to the Oberhofen landing right next to the castle, or a bus from Thun station along the lake to Oberhofen village.

Tip
Arrive by boat for the classic view of the lake tower. The museum is open from spring to autumn; the park is a lovely spot for a picnic by the water.

Colours in this set

Sort your bricks into these colour groups before you start, one bowl each. Light and dark versions of a colour look alike under warm light: sort them in daylight. Every step names the colour of each part, plain name first, official name in brackets.

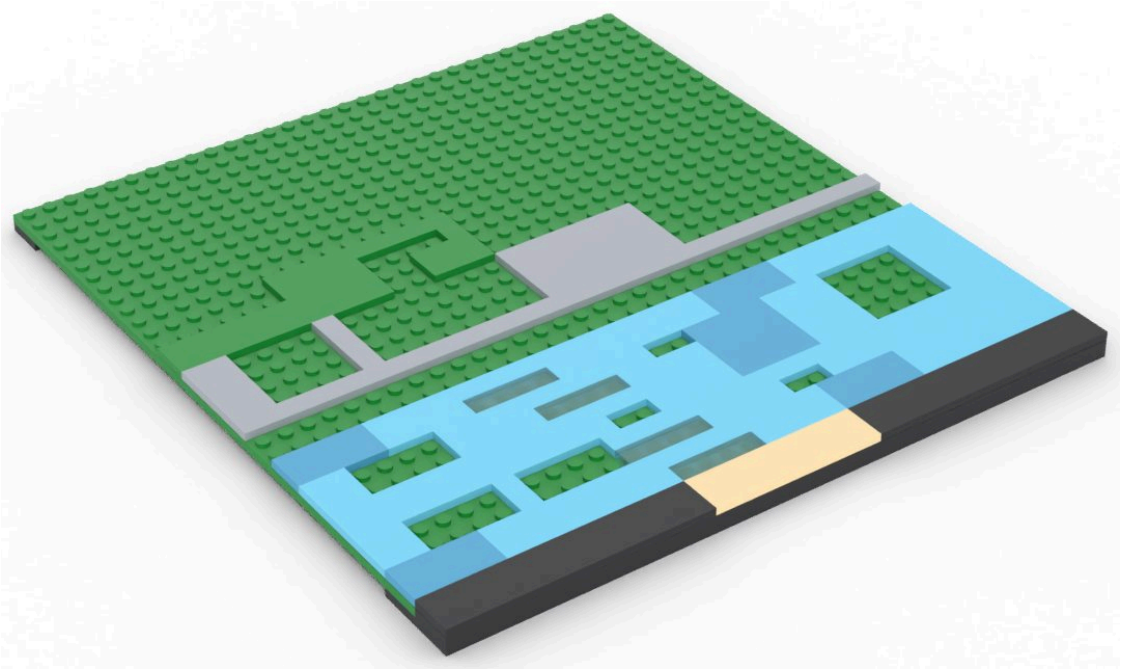
Chapter 1

The base, the lake and the quay

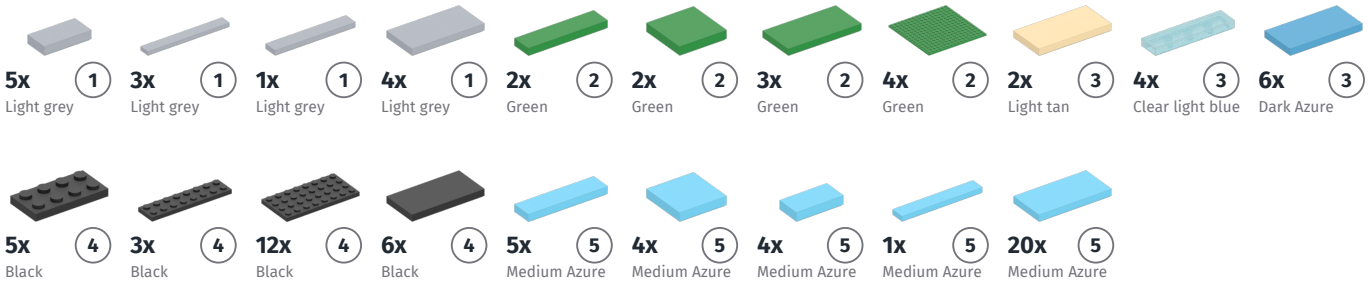
Steps 1–22 · 96 pieces

You'll need bowls 1, 2, 3, 4 and 5

Every model in the series stands on the same black display stand with a nameplate, so your souvenirs line up on the shelf. You build the base first; while it is still flat, you press the stand's plates under its front edge and the feet under its back. The label goes on at the very end.

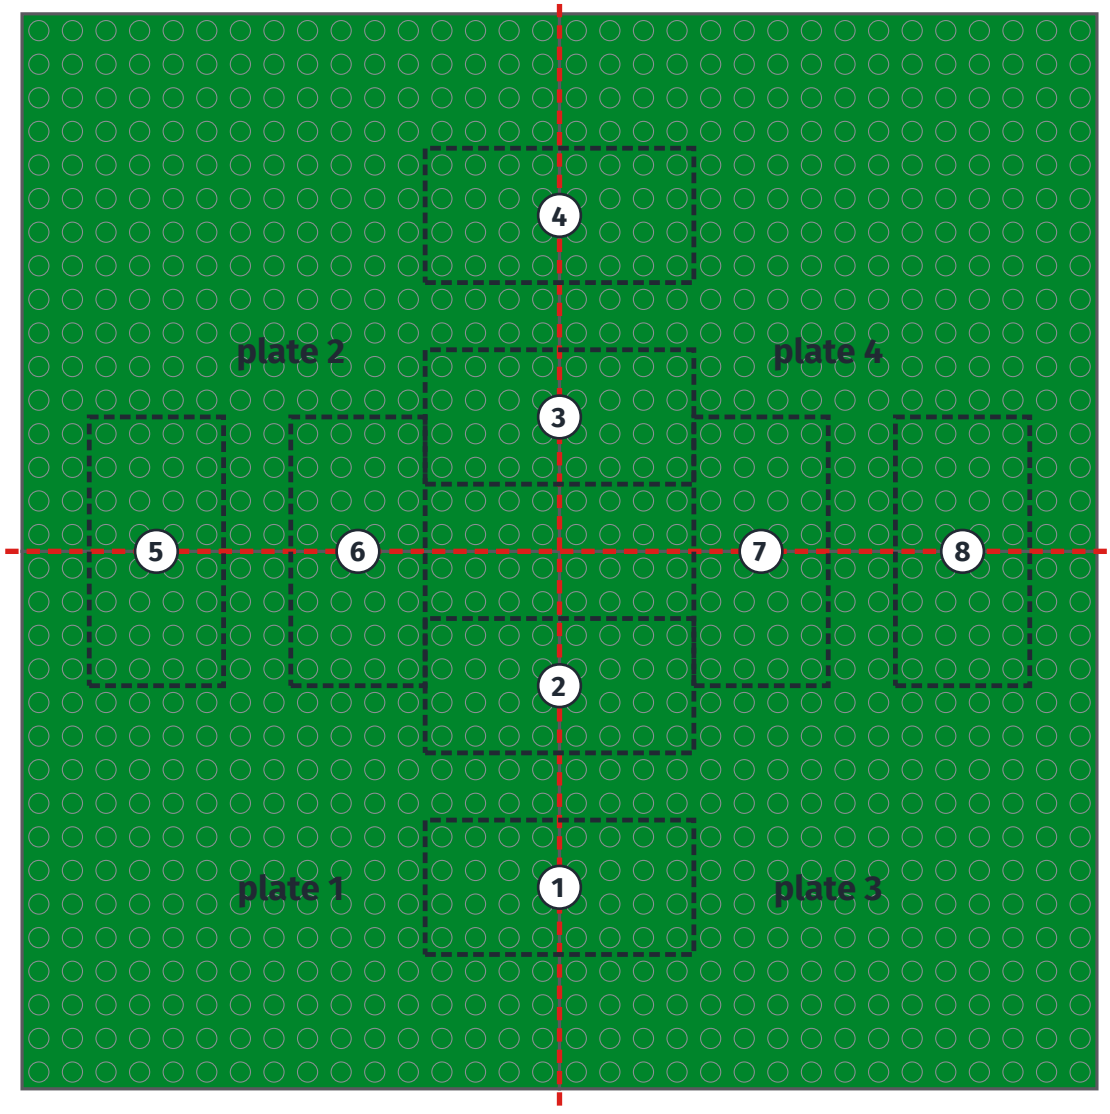


Parts in this chapter (the circle: its bowl)



First: join the base plates

The base is 4 plates of 16 × 16 studs (Green), 32 × 32 studs in all. In steps 1–2, lay the 8 black plates on the table, studs up, where the dashed outlines are. In step 3, press the base plates on top, edges flush: each plate below sits half under one base plate and half under the next, so the seam is locked along its length.

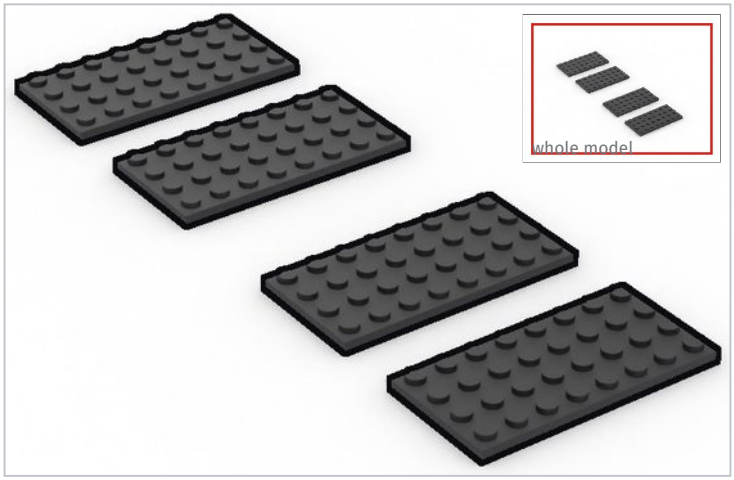


FRONT: this edge faces you in the step pictures. Red dashes: the seams.

1 8 × 4 plate, Black, underneath: 12 studs from the left edge, 4 from the front
2 8 × 4 plate, Black, underneath: 12 studs from the left edge, 10 from the front
3 8 × 4 plate, Black, underneath: 12 studs from the left edge, 18 from the front
4 8 × 4 plate, Black, underneath: 12 studs from the left edge, 24 from the front
5 4 × 8 plate, Black, underneath: 2 studs from the left edge, 12 from the front
6 4 × 8 plate, Black, underneath: 8 studs from the left edge, 12 from the front
7 4 × 8 plate, Black, underneath: 20 studs from the left edge, 12 from the front
8 4 × 8 plate, Black, underneath: 26 studs from the left edge, 12 from the front

1

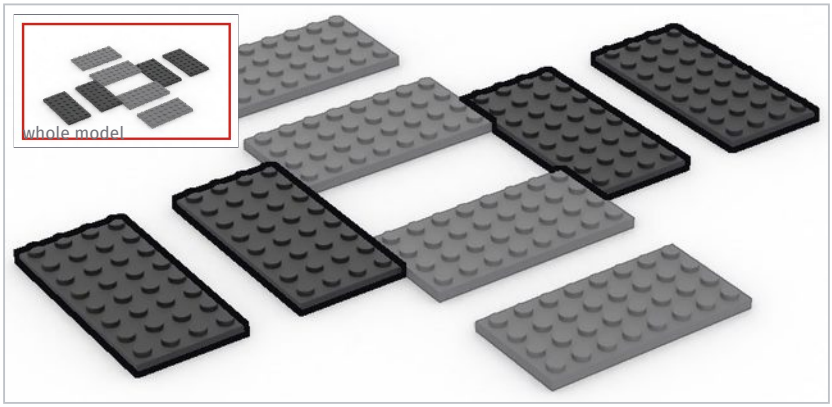
4x
Black



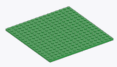
HIDDEN SUPPORT
These black plates go under the seams and lock the four base plates together. On the display stand they sit flush, out of sight.

2

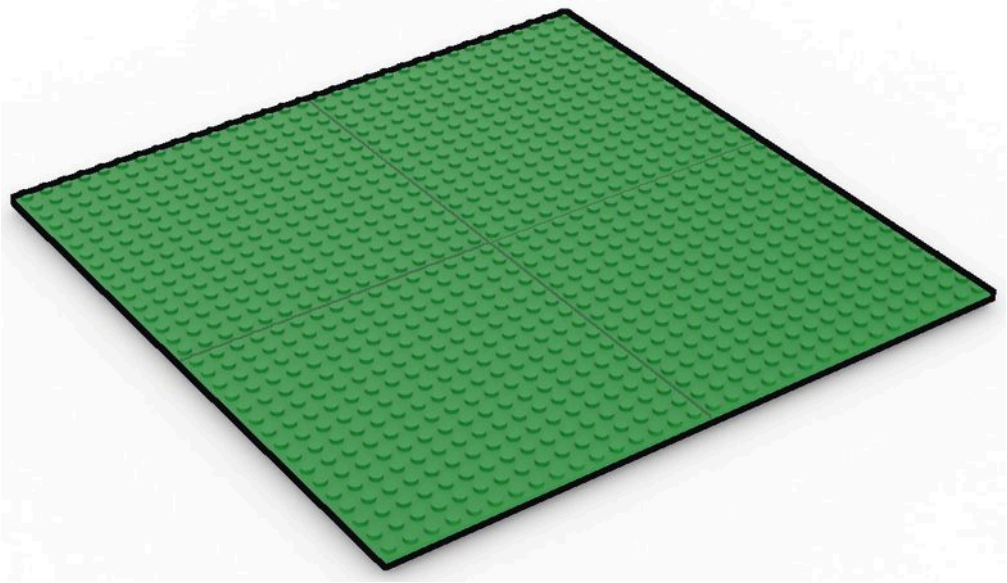
4x
Black



3

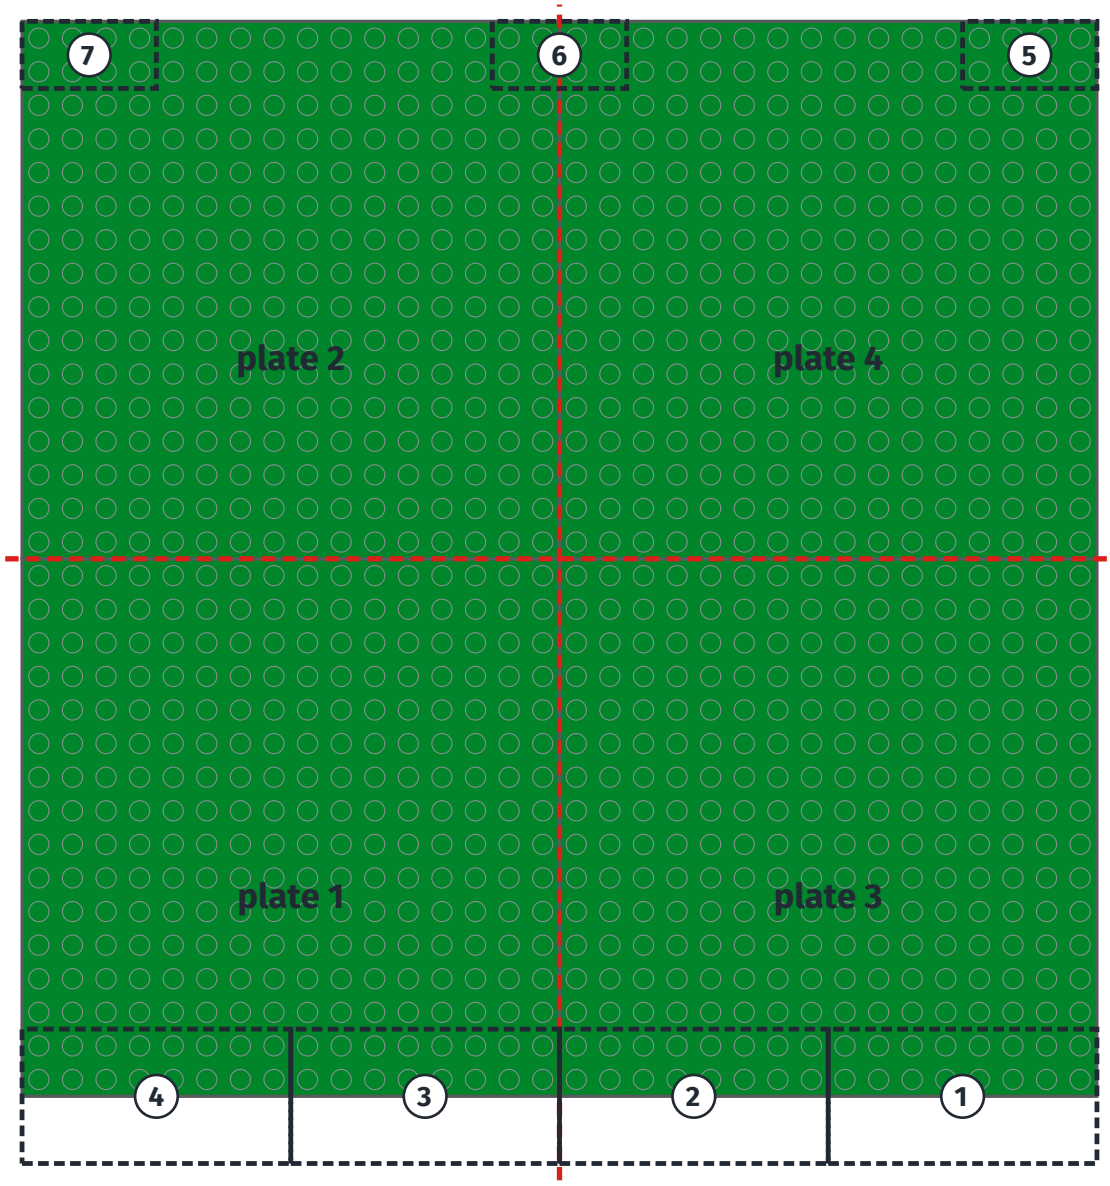


4x
Green



Then: the display stand goes under the base

In steps 4–5, while the base is still flat and light, lift its front edge and press the 4 long black plates under it: half under the base, half sticking out in front, where the dashed outlines are. Then lift the back edge and press the 3 small black plates (the feet) under it. The model now stands level on its display stand; the strip and the nameplate go on top of the long plates next.



FRONT: this edge faces you in the step pictures. Red dashes: the seams.

1 8 × 4 plate, Black, underneath: 24 studs from the left edge, 0 from the front
2 8 × 4 plate, Black, underneath: 16 studs from the left edge, 0 from the front
3 8 × 4 plate, Black, underneath: 8 studs from the left edge, 0 from the front
4 8 × 4 plate, Black, underneath: 0 studs from the left edge, 0 from the front
5 4 × 2 plate, Black, underneath: 28 studs from the left edge, 32 from the front
6 4 × 2 plate, Black, underneath: 14 studs from the left edge, 32 from the front
7 4 × 2 plate, Black, underneath: 0 studs from the left edge, 32 from the front

A smoking room from Cairo

Look at the top windows of the keep: one of them glows in warm, exotic colours.

In the 1850s the Pourtalès family had an oriental smoking room built up there, copied from the houses of rich merchants in Cairo.

The little tower in the lake has a story too: it stood there by 1680, was pulled down around 1700 and was built again by the counts in the 19th century.
