MY SWISS BRICK TRIP · BERNE

Palais fédéral

Photo: Marc-Lautenbacher · CC BY-SA 4.0

845 pièces · 93 références

Un modèle souvenir en briques, compatible avec les briques standard.

Sur son socle : 25,6 × 27,6 cm, 18,2 cm de haut.

Listes de pièces pour Pick a Brick et BrickLink : voir le site du projet.

Revis tes vacances en Suisse, brique après brique · un projet amateur gratuit, sans lien avec aucun fabricant de briques

Palais fédéral

C'est au Palais fédéral que se gouverne la Suisse : les deux chambres du parlement siègent sous sa coupole verte, et le gouvernement a ses bureaux dans les ailes. Sa longue façade de grès donne sur la place fédérale, au cœur de Berne, tandis que l'arrière domine l'Aar avec les Alpes à l'horizon. On peut le visiter gratuitement avec un guide ou suivre un débat depuis la tribune du public.

Sur la place fédérale (Bundesplatz), au bord sud de la vieille ville de Berne, au-dessus de l'Aar, à quelques minutes à pied de la gare.

Construction	aile ouest de 1852 à 1857, aile est de 1888 à 1892, Palais du Parlement de 1894 à 1902
Architecte	Hans Wilhelm Auer (Palais du Parlement et aile est) ; Jakob Friedrich Studer (aile ouest)
Type	siège du parlement et du gouvernement suisses
Coupole	environ 60 m de haut, en cuivre vert aux nervures dorées, avec une croix d'or sur la lanterne
Pierre	une trentaine de pierres venues de 13 cantons ; 95 % des matériaux proviennent de Suisse
À faire	suivre une visite guidée gratuite, assister à une session depuis la tribune et profiter de la vue depuis la terrasse fédérale

Le modèle que tu vas construire.

Au fil des siècles

1848 Le nouvel État fédéral choisit Berne comme siège du gouvernement et du parlement.

1852 à 1857 Le palais du Conseil fédéral, l'actuelle aile ouest, est construit sur les plans de Jakob Friedrich Studer.

1888 à 1892 Hans Wilhelm Auer construit l'aile est pour l'administration fédérale qui s'agrandit.

1894 Entre les deux ailes commence la construction du Palais du Parlement d'Auer.

1900 à 1901 Pendant l'hiver, la charpente d'acier de la coupole est montée puis revêtue de cuivre et de feuilles d'or.

1er avril 1902 L'Assemblée fédérale inaugure solennellement le Palais du Parlement.

2004 La place fédérale, longtemps un parking, rouvre comme une place pavée rendue aux piétons.

2006 à 2008 Le Palais du Parlement connaît sa première restauration complète depuis plus de cent ans.

Photo: Flooffy · CC BY 2.0 · Wikimedia Commons

Tout un pays dans la pierre

Auer voulait que chaque région de Suisse soit présente dans son parlement. Il fit venir une trentaine de pierres de 13 cantons : granit et gneiss des Alpes, marbre, calcaire et serpentine de tout le pays. Seuls quelques éléments, comme une partie du marbre des sculptures, viennent de l'étranger.

Un pour tous, tous pour un

Lève les yeux dans la salle de la coupole : la croix suisse brille sur un vitrail, entourée des armoiries des 22 cantons de 1902 et de la devise latine « Unus pro omnibus, omnes pro uno ». Le canton du Jura, créé plus tard, y a trouvé sa place en 1981. En dessous se dressent les trois Confédérés, fondateurs légendaires de l'ancienne alliance.

La coupole dont personne ne voulait

Quand Auer présenta sa coupole, les critiques la jugèrent trop chère, trop tape-à-l'œil et inutile. Il répondit qu'elle symbolisait l'égalité des deux chambres, qui siègent de part et d'autre, et qu'un palais long de 300 mètres avait besoin d'un centre. Aujourd'hui, la coupole est le symbole le plus connu de la démocratie suisse.

OÙ LE TROUVER À BERNE

Adresse
Bundesplatz 3, 3005 Bern

Pour y aller
Environ cinq minutes à pied depuis la gare de Berne par la Bubenbergplatz et la Bärenplatz, ou en tram ou en bus jusqu'à l'arrêt Zytglogge, puis trois minutes à pied.

Conseil
Fais le tour jusqu'à la terrasse fédérale, derrière le palais, pour la vue sur l'Aar et les Alpes. Le mardi et le samedi matin, un marché occupe la place ; les visites sont gratuites mais doivent être réservées : vérifie les horaires avant de partir.

Couleurs de ce set

Trie tes briques par groupes de couleurs avant de commencer, un bol par groupe. Les tons clairs et foncés d'une couleur se ressemblent sous une lumière chaude : trie-les à la lumière du jour. Chaque étape donne la couleur de chaque pièce, d'abord en mots simples, le nom officiel entre parenthèses.

couleur	en gris	pièces	bol

Chapitre 1

La place

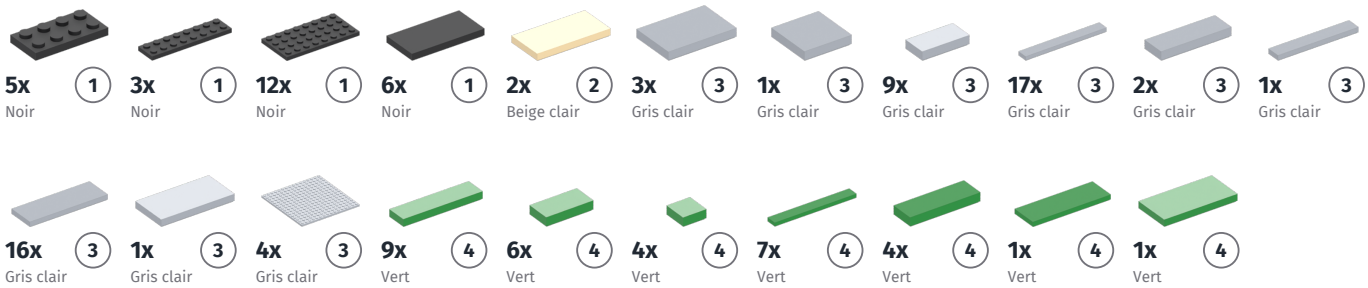

Étapes 1 à 23 · 114 pièces

Il te faut les bols 1, 2, 3 et 4

Chaque modèle de la série repose sur le même support noir avec une plaque, pour que tes souvenirs s'alignent sur l'étagère. Tu construis d'abord la base ; tant qu'elle est encore plate, tu presses les plaques du support sous son bord avant et les pieds sous l'arrière. L'étiquette se pose à la fin.

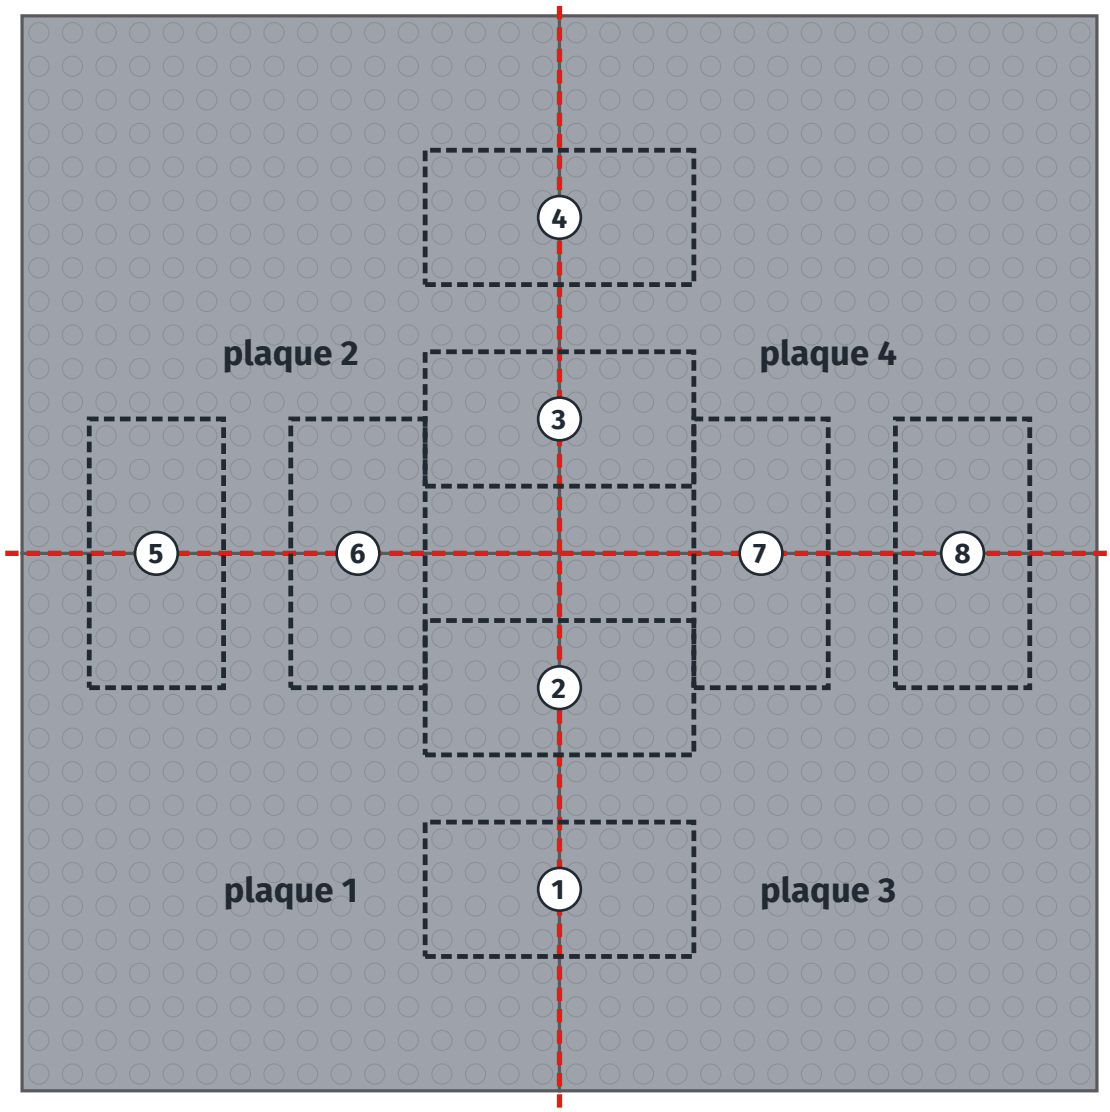

Pièces de ce chapitre (dans le cercle : son bol)

D'abord : assembler les plaques de base

La base se compose de 4 plaques de 16 × 16 tenons (Gris clair (Light Bluish Grey)), 32 × 32 tenons en tout. Aux étapes 1 à 2, pose les 8 plaques sur la table, tenons en haut, aux contours en pointillés. À l'étape 3, presse les plaques de base dessus, bord à bord : chaque plaque du dessous est à moitié sous une plaque de base et à moitié sous la suivante, et verrouille le joint sur toute sa longueur.

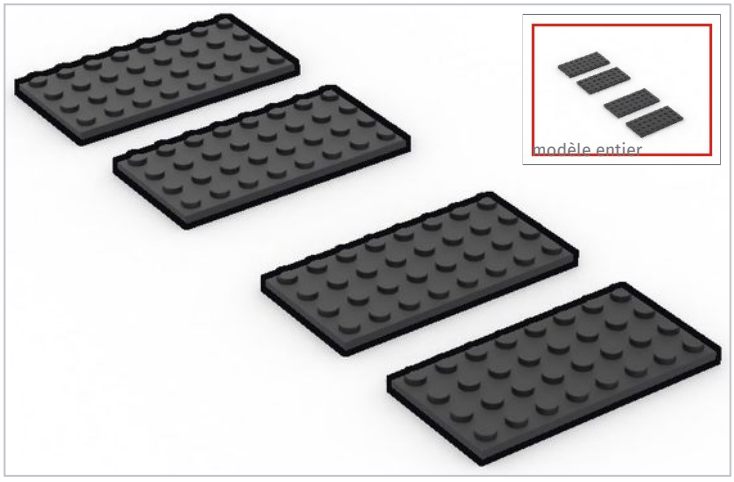

DEVANT : ce bord est face à toi dans les images des étapes. Tirets rouges : les joints.

1 plaque 8 × 4, Noir (Black), dessous : 12 tenons du bord gauche, 4 de l'avant
2 plaque 8 × 4, Noir (Black), dessous : 12 tenons du bord gauche, 10 de l'avant
3 plaque 8 × 4, Noir (Black), dessous : 12 tenons du bord gauche, 18 de l'avant
4 plaque 8 × 4, Noir (Black), dessous : 12 tenons du bord gauche, 24 de l'avant
5 plaque 4 × 8, Noir (Black), dessous : 2 tenons du bord gauche, 12 de l'avant
6 plaque 4 × 8, Noir (Black), dessous : 8 tenons du bord gauche, 12 de l'avant
7 plaque 4 × 8, Noir (Black), dessous : 20 tenons du bord gauche, 12 de l'avant
8 plaque 4 × 8, Noir (Black), dessous : 26 tenons du bord gauche, 12 de l'avant

RENFORT CACHÉ
Ces plaques noires passent sous les joints et verrouillent les quatre plaques de base. Sur le présentoir, elles restent à plat et invisibles.

2

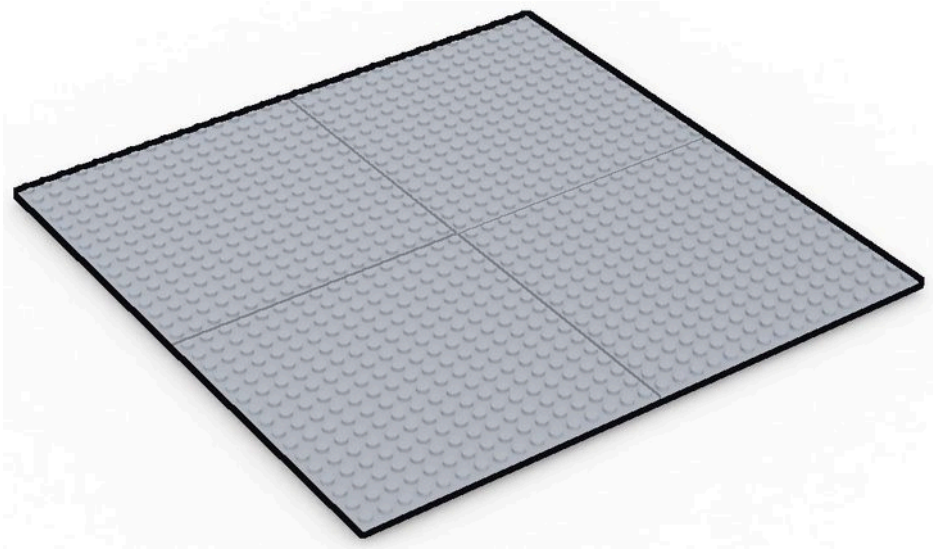

4x
Noir
(Black)

3

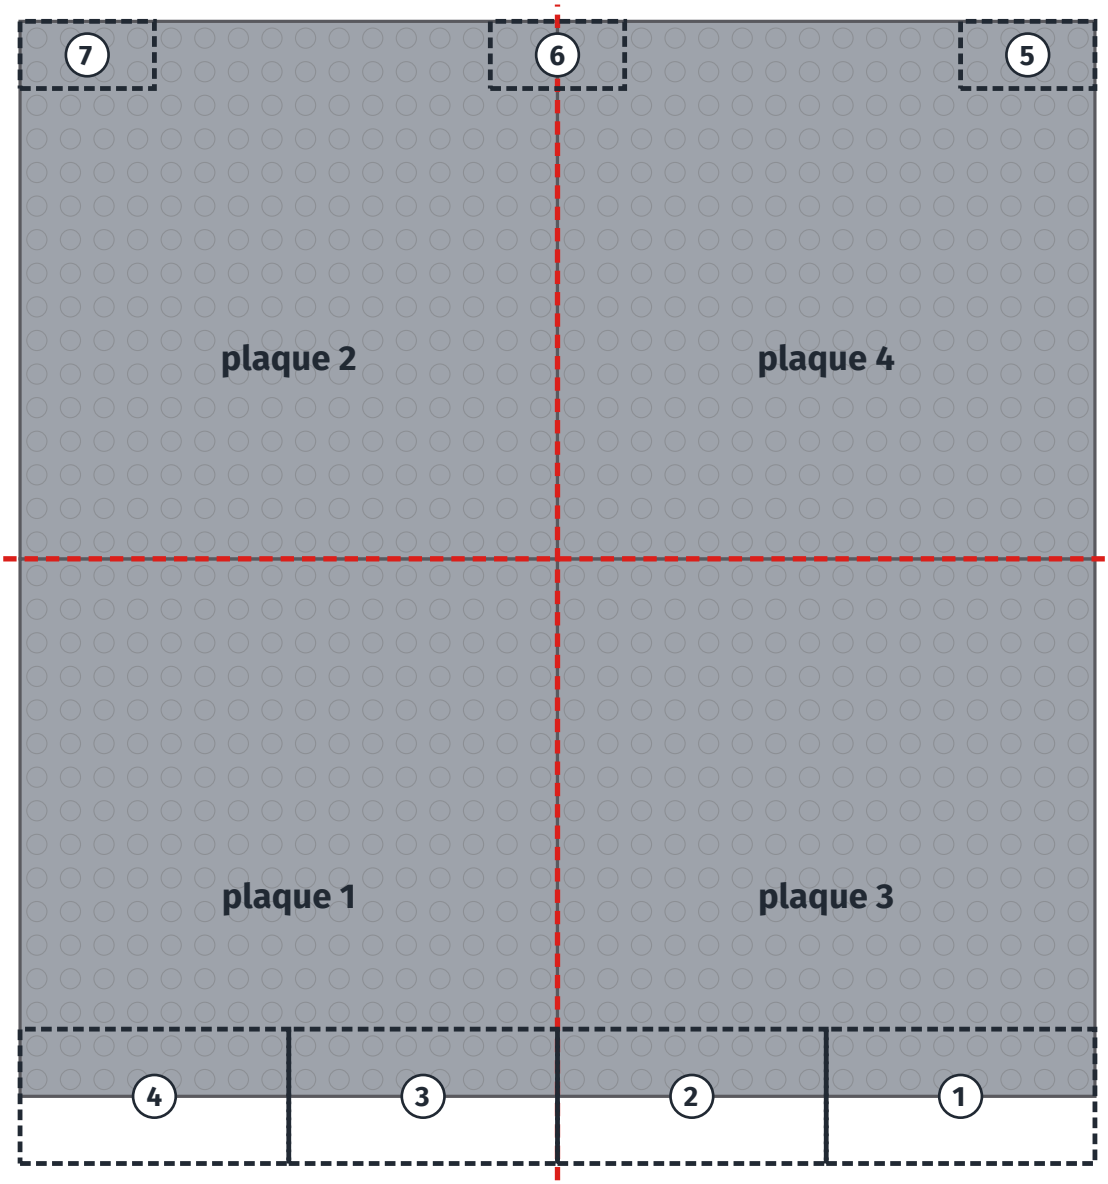

4x
Gris clair
(Light Bluish Grey)

Ensuite : le support passe sous la base

Aux étapes 4–5, tant que la base est encore plate et légère, soulève son bord avant et presse les 4 longues plaques noires dessous : à moitié sous la base, à moitié dépassant devant, aux contours en pointillés. Soulève ensuite le bord arrière et presse les 3 petites plaques noires (les pieds) dessous. Le modèle repose maintenant d'aplomb sur son support ; la bande et la plaque du nom se posent ensuite sur les longues plaques.

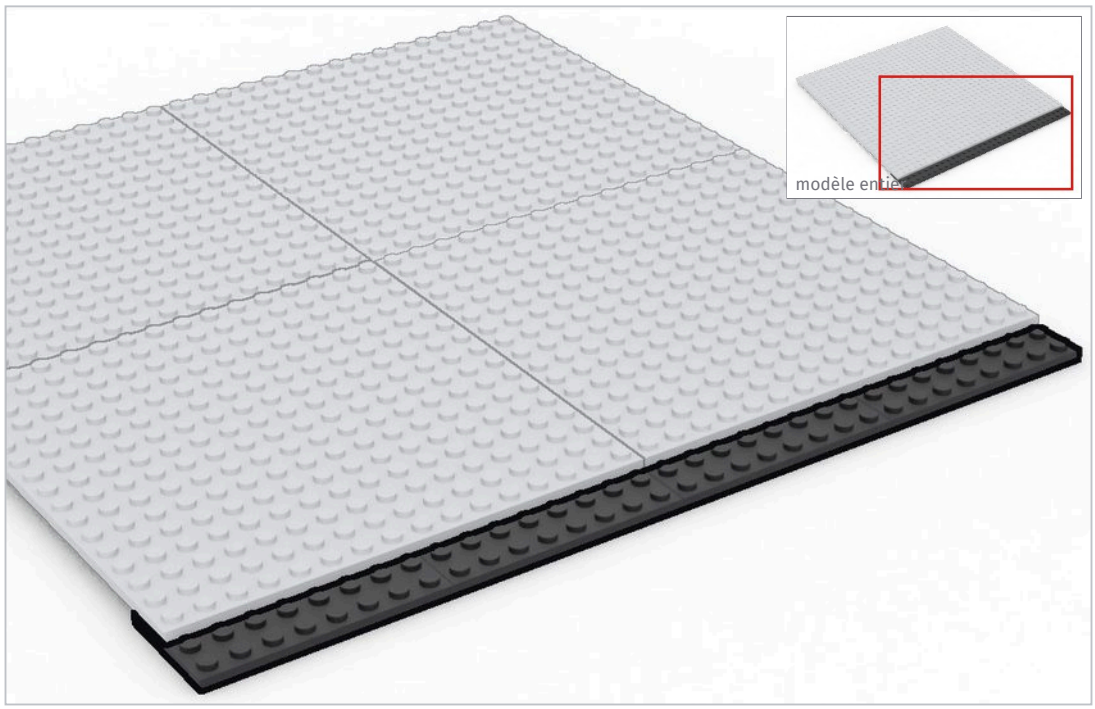

DEVANT : ce bord est face à toi dans les images des étapes. Tirets rouges : les joints.

1 plaque 8 × 4, Noir (Black), dessous : 24 tenons du bord gauche, 0 de l'avant
2 plaque 8 × 4, Noir (Black), dessous : 16 tenons du bord gauche, 0 de l'avant
3 plaque 8 × 4, Noir (Black), dessous : 8 tenons du bord gauche, 0 de l'avant
4 plaque 8 × 4, Noir (Black), dessous : 0 tenons du bord gauche, 0 de l'avant
5 plaque 4 × 2, Noir (Black), dessous : 28 tenons du bord gauche, 32 de l'avant
6 plaque 4 × 2, Noir (Black), dessous : 14 tenons du bord gauche, 32 de l'avant
7 plaque 4 × 2, Noir (Black), dessous : 0 tenons du bord gauche, 32 de l'avant

Chapitre 7 terminé

Le modèle est terminé. Bravo !

Ta plaque nominative

Imprime cette page à 100 % (sans « ajuster à la page »), découpe une étiquette le long du trait gris et colle-la sur la plaque beige 2 × 8 du socle. Conseil : du papier autocollant ou une bande de ruban adhésif transparent par-dessus la fait durer plus longtemps.

Des oignons devant le parlement

Regarde la place devant le palais : un petit stand déborde de tresses d'oignons orange.

Il rappelle le Zibelemärit, le marché aux oignons de Berne, qui a lieu chaque année le quatrième lundi de novembre. Les paysans apportent des tonnes d'oignons tressés en nattes, en couronnes et en figurines, et les stands envahissent la vieille ville jusqu'à la place fédérale.

La vente commence bien avant l'aube, et l'après-midi la journée se termine par une joyeuse bataille de confettis dans les rues.
