

Limmatquai and Rathaus

1329 pièces · 111 références

Un modèle souvenir en briques, compatible avec les briques standard.

Sur son socle : 38.4 × 27.2 cm, 10.6 cm de haut.

Liste des pièces et Wanted List BrickLink : voir le site du projet.

LE MONUMENT

Limmatquai and Rathaus

La Limmat sort du lac de Zurich et traverse toute la vieille ville. En plein milieu de la rivière, sur des fondations dans l'eau, se dresse le Rathaus, l'hôtel de ville baroque de Zurich. À côté, la Rathausbrücke, autrefois le marché aux légumes, relie les deux rives, et le long du Limmatquai, des trams bleu et blanc passent devant une rangée de vieilles maisons à arcades.

Sur la rive droite de la Limmat, entre le Grossmünster et la gare centrale. Le Rathaus se dresse dans la rivière, au bout de la Rathausbrücke.

Rivière	sort du lac de Zurich et rejoint l'Aar environ 36 km plus loin
Rathaus	construit de 1694 à 1698 dans la rivière, à la place de la maison du conseil médiévale
À l'intérieur	les parlements du canton et de la ville siègent toujours au Rathaus
Première mention écrite	771
Münsterbrücke	1836 à 1838 ; quatre arches plates en pierre
Rathausbrücke	le plus ancien passage ; reconstruit de 2026 à 2029
Nom local	« Limet » en dialecte zurichois

Au fil des siècles

- 771** ● La rivière apparaît pour la première fois dans un écrit.
- début des années 1300** ● Le Rathausbrücke sert aussi de marché, d'où son surnom « Gmüesbrugg » (pont aux légumes).
- vers 1660** ● Le Bauschänzli est construit dans la rivière, comme ouvrage avancé à cinq côtés des fortifications de la ville.
- 1836 à 1838** ● Le Münsterbrücke est construit sur des plans d'Alois Negrelli. Jusque-là, la Rathausbrücke était le seul passage pour les charrettes.
- 1864** ● Le Bahnhofbrücke en pierre d'Arnold Bürkli ouvre et relie la nouvelle gare à la vieille ville.
- 1881** ● Le Rathausbrücke reçoit un tablier en fonte, et le Limmatstein est dynamité.
- 1937** ● Un cavalier en bronze, Hans Waldmann, prend place au bout ouest du Münsterbrücke.
- 1950 à 1952** ● Un Bahnhofbrücke en béton, bien plus large, remplace le pont de Bürkli.
- 2026 à 2029** ● Le Rathausbrücke des années 1970 est remplacé par un pont plus fin, avec moins de piliers, pour que les crues passent plus facilement.

REGARDE DE PLUS PRÈS

Le rocher dans la rivière

Juste en aval de la Rathausbrücke se trouvait un gros rocher, le Limmatstein. Il n'apparaissait que quand l'eau était très basse, comme en 1580, 1740 et 1814. La plus grande partie a été brisée en 1823, et au printemps 1881 le reste a été dynamité. On raconte que les bouchers ont ensuite offert un verre aux ouvriers.

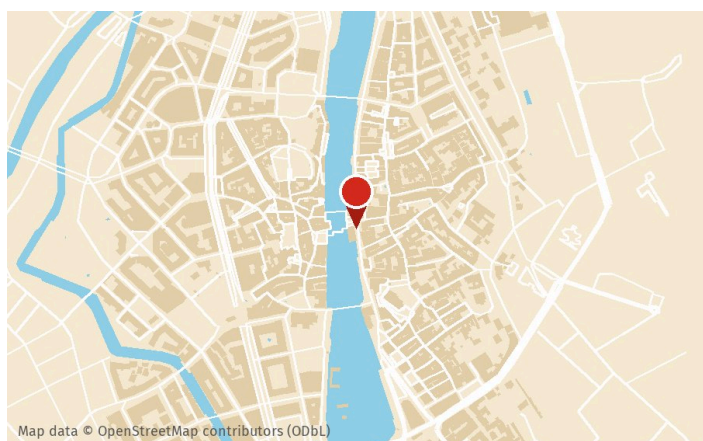

Un marché sur l'eau

Le Rathausbrücke est si large qu'on se croirait plutôt sur une place que sur un pont. Pendant des siècles, des paysans y ont vendu des légumes, et après l'office du dimanche, les habitants s'y retrouvaient pour des assemblées et des cérémonies.

Une île pour la bière

Le Bauschänzli a été construit pour protéger la ville, et en 1841 la ville l'a acheté à condition qu'il reste un espace public ouvert. Aujourd'hui, il accueille un grand jardin à bière en été, une fête de la bière en automne et un cirque en hiver.

OÙ LE TROUVER À ZÜRICH

Adresse

Rathaus, Limmatquai 55, 8001 Zürich

Pour y aller

En tram jusqu'à l'arrêt Rathaus sur le Limmatquai ; ou environ dix minutes à pied depuis la gare centrale, le long de la rivière.

Conseil

Place-toi au milieu de la Rathausbrücke et regarde vers l'aval : sur ta droite, le Rathaus sort directement de l'eau, et derrière lui, les trams glissent le long du Limmatquai.

Le socle

Chaque modèle de la série repose sur le même socle noir avec une plaque nominative : tes souvenirs s'alignent sur l'étagère. Construis la bande noire, emboîte-la sous le bord avant du modèle, puis les petites plaques 2 × 4 (les pieds) sous ses coins arrière. Colle ensuite l'étiquette de la page « plaque nominative » sur les tuiles beiges.

6

tourne le modèle

Ta plaque nominative

Imprime cette page à 100 % (sans « ajuster à la page »), découpe une étiquette le long du trait gris et colle-la sur la plaque beige 2 × 8 du socle. Conseil : du papier autocollant ou une bande de ruban adhésif transparent par-dessus la fait durer plus longtemps.

Le Limmatstein

Regarde dans la rivière sous le Rathaus : une petite pierre sombre se trouve juste sous la surface.

Le Limmatstein était un rocher dans la rivière qui n'apparaissait que lorsque l'eau était très basse. Il fut finalement dynamité en 1881, et les bouchers auraient offert à boire aux ouvriers.

Le Rathaus se dresse dans la rivière exprès : construit sur pilotis dans l'eau, il n'appartenait à aucune rive, et donc à toute la ville.
