

Saint-Pierre and the Jet d'Eau

662 pièces · 70 références

Un modèle souvenir en briques, compatible avec les briques standard.

Sur son socle : 25.6 × 27.2 cm, 16.3 cm de haut.

Liste des pièces et Wanted List BrickLink : voir le site du projet.

LE MONUMENT

Saint-Pierre and the Jet d'Eau

Deux symboles de Genève dans un seul set : la cathédrale Saint-Pierre, sur la colline de la vieille ville, avec son portique classique et sa flèche verte, et le Jet d'Eau, qui s'élève à 140 mètres au-dessus du lac.

La cathédrale se dresse au sommet de la Vieille-Ville ; le Jet d'Eau se trouve au bout de la jetée des Eaux-Vives, sur le lac, à environ un kilomètre.

Construction de la cathédrale d'environ 1160 à 1250

Portique ouest 1752 à 1756, par Benedetto Alfieri

Flèche en métal, 1895

Protestante depuis 1535

Jet d'Eau 140 mètres de haut, à son emplacement actuel depuis 1891

Au fil des siècles

- 
- A vertical timeline with a light brown line and red circular markers at each date point.
- vers 1160** ● Début des travaux de la cathédrale romano-gothique.
 - 1407** ● La grande cloche La Clémence est fondue pour la tour nord.
 - 1535** ● La Réforme : la cathédrale devient protestante.
 - 1536** ● Jean Calvin arrive à Genève ; il enseigne à Saint-Pierre pendant plus de vingt ans.
 - 1752 à 1756** ● Le portique néoclassique de Benedetto Alfieri remplace la façade ouest gothique.
 - 1891** ● Le Jet d'Eau est déplacé à son emplacement actuel, dans la rade.
 - 1895** ● La flèche verte en métal est posée sur la croisée du transept.

REGARDE DE PLUS PRÈS

Un guetteur dans la tour

De 1527 à 1911, un guetteur vivait dans la tour sud et surveillait la ville pour repérer les incendies.

Une soupape devenue symbole

Le premier jet de Genève était une soupape de sécurité d'un réseau d'eau sous pression, dans les années 1880. Les gens l'aimaient tant qu'on en a construit un bien plus puissant dans la rade en 1891.

Quatre cathédrales en profondeur

Les fouilles sous Saint-Pierre ont mis au jour les restes d'églises plus anciennes, qui remontent jusqu'au 4^e siècle. Le site archéologique sous la cathédrale est ouvert au public.

OÙ LE TROUVER À GENÈVE

Adresse

Cour de Saint-Pierre, 1204 Genève

Pour y aller

Bus ou tram jusqu'à Molard ou Bel-Air, puis monte par les ruelles de la vieille ville ; pour le Jet d'Eau, longe à pied les quais du lac.

Conseil

Monte dans la tour nord pour la vue sur les toits jusqu'au lac et au Jet d'Eau, puis descends à la rade et avance sur la jetée, si quelques éclaboussures ne te dérangent pas.

Dernier chapitre

Le socle

Chaque modèle de la série repose sur le même socle noir avec une plaque nominative : tes souvenirs s'alignent sur l'étagère. Construis la bande noire, emboîte-la sous le bord avant du modèle, puis les petites plaques 2 × 4 (les pieds) sous ses coins arrière. Colle ensuite l'étiquette de la page « plaque nominative » sur les tuiles beiges.

tourne le modèle

Ta plaque nominative

Imprime cette page à 100 % (sans « ajuster à la page »), découpe une étiquette le long du trait gris et colle-la sur la plaque beige 2 × 8 du socle. Conseil : du papier autocollant ou une bande de ruban adhésif transparent par-dessus la fait durer plus longtemps.

La chaise de Calvin

Regarde par la petite porte latérale à droite de la nef : une petite chaise brune se trouve à l'intérieur.

Dans la cathédrale, tu peux encore voir une chaise qui aurait appartenu à Calvin ; le réformateur aurait suivi les offices depuis cette chaise.

Sous la cathédrale, les archéologues ont trouvé les restes d'églises remontant au IV^e siècle ; tu peux visiter les fouilles.
